DOING A LITTLE "NAILING." Blaine Draws the Record Against One of Roger Q.'s Assertions.

Biaine Braws the Record Against One of Roger Q.'s Assertions.

New Aleany (Ind.), October 15th.—Inclement weather interfered somewhat with the demonstration here on the arrival of Hon. James G. Blaine, General A. P. Hovey, "Corporal" Tanner, General Adam E. King and A. Snowden. Toward noon the rain abated, and the thousands of visitors from Louisville, Jeffersonville, Charleston, Madison, Corydon and other neighboring points tramped about the muddy streets. At 9 o'clock Blaine and General Hovey held a public reception at the Union Hotel, around which several thousand people clamored. After shaking hands for a while, Blaine thanked the assemblage for the cordial welcome extended General Hovey and himself, and returned to ex-Congressman Culberson's residence, where he received many calters during the day.

Notwithstanding the unfavorable condition of the streets, the parade in the afternoon was declared by citizens to be the largest aud most imposing demonstration in the history of the city. Blaine reviewed the procession was forty minutes in passing. Several thousand marchers were in line.

A mass meeting was held, at which it was estimated from 10,000 to 12,000 people were presented. Blaine arrived at 3:30, and was given an ovation. He was in good voice, and spoke substantially as follows:

BLAINE'S SPEECH.

Mr. Chairway Last Wednesdey at Gosbon.

Mr. Chairway Last Wednesdey at Gosbon.

BLAINE'S SPEECH. Mr. Chairman: Last Wednesday at Goshen, Ind., I stated that Mr. Havemeyer, President of the sugar Trust, had appeared before the Ways and Means Committee when the tariff bill was up, and, according to Senator Allison, had secured an arrangement by which \$6,000,000 were put into the prejects of that trust. Mr. Mills up, and, according to Senator Allison, had secured an arrangement by which \$6,000,000 were put into the pockets of that trust. Mr. Mills, Chairman of the Ways and Means Committee, in a special card printed this morning in the Louisville papers, denies that Havemeyer ever appeared before that committee, or that any such arrangement as I have spoken of was made for his benefit. I do not know what Mr. Mills means by this denial, unless it is that Havemeyer never appeared before the full committee when in regular session. If he means that he did not appear before members of the committee, in the committee room, then he is contradicted not by myself but by the Congressional Record. On page 6,503 of the Congressional Record. On page 6,503 of the Congressional Record. For the current session, issued on July 10th, a debate is reported in which Breckenridge of Arkansas, a member of the Ways and and Means Committee, admitted that he invited Havemeyer and his attorney to the room of the the Committee on Ways and Means, on the 12th of April, to talk over the sugar tariff; and Breckenridge of Kentucky, another member of the same committee, admitted having met Havemeyer and his attorney at another time. All that I stated is substantiated by what I now quote, and in consequence the sugar standard was changed from No. 13—originally reported and printed in the tariff bill to No. 16, as reported by the Ways and Means Committee, and as it passed the House—and it was in this change that Senator Allison finds the six millions of dollars that Mills' committee put in the pockets of the trust. I may take Mr. Mills' denial, if he chooses, that Havemeyer never appeared before him, but here were two members of the Ways and Means Committee who openly acknowledged that they *TO-DAY!*

that Havemeyer never appeared before him, but here were two members of the Ways and Means Committee who openly acknowledged that they had heard not only Havemyer, but his attorney, an attorney who was skilled in every feature of the sugar tariff, and not only knew what points were advantageous to the Government, but also knew still further what points were advantage-ous to the trust. The latter points seem to have been adopted by the Ways and Means Commit-tee, though perhaps Mr. Mills did not know it. tee, though perhaps Mr. Mills did not know it. [Laughter and cheers.]

I find also in the papers to-day a report of a Dewocratic meeting in New York before which Fairfield, the Secretary of the Treasury, appeared to defend his policy of loaning sixty millions of the people's money to certain pet banks without interest. His defense consists chiefly in proving that I overstated the amount that these banks could make out of that transaction. He says that I calculated the interest on the whole sixty millions, whereas the banks are compelled to keep 25 per cent, in their vaults. The poor banks! what hardships they have to endure! [Laughter and cheers.] I think Fairchild's answer is perfectly amazing, and it recalls to me the soliloquy of a party who drew a \$10,000 prize in a lottery a few years ago, when the habit was to deduct 15 per cenf. before paying the amount. "How lucky it was," he says, "that I did not draw \$20,000! It would have ruined me to pay the premium." [Laughter and cheers.]

Fairchild does not frankly and manfully confront the issue. He does not state to the people how the banks could afford to huy Government.

rainfuld does not trankly and manually con-front the issue. He does not state to the people how the banks could afford to buy Government bonds when the Government itself could not afford it. It it was an advantageous proceed-ing for these banks to invest sixty million doling for these banks to invest sixty million dollars in Government bonds, why was it not still more advantageous for the Government to do it? [Cheers.] I press this question upon Mr. Fairchild, for he has not answered why, if the banks could make from 2 to 2½ per cent. upon the purchase of United States fours, the Treasury Department could not make as much [cheers], when by doing what the banks do he could have wiped out sixty millions of the public debt. [Cheers.] I press this question because it is a pertiuent question. General Harrison made a well-grounded accusation and used a happy phrase when he accused the national Administration of "BURNING THE SURPLUS."

If Fairchild had invested sixty millions in Government bonds it would not have appeared in the surplus, but if he loaned it to pet banks it still appears as a part of the frightful surplus, to get rid of which they must destroy the protective tariff. There is a very suggestive point bearing on that, to which I beg to call Mr. Fairchild's attention. Between March, 1885, and June 30, 1886 (four months from President Cleveland's inauguration), the surplus in the June 30, 1886 (four months from President Cleveland's inauguration), the surplus in the Treasury increased \$55,000,000, and the public debt was only reduced \$50,000,000. Of this \$50,000,000, forty-four and one-half millions were compulsory purchases for the sinking fund. The further fact is revealed that there was at that very date \$50,000,000 of three-per-cent. bonds that could have been called in at par, and they were left in the hands of private holders, drawing interest, and in order that the bugbear of the surplus might be raised and—as General Harrison says—"carefully nursed." [Cheers.]

"BURNING THE SURPLUS."

General Harrison says—"carefully nursed." [Cheers.]
Mr. Blaine said that when the Democratic party came into power four years ago it had found no surplus at all, though during the campaign of 1884 the Democratic speakers had placed the alleged surplus at four hundred millions. The policy of President Cleveland's Administration was to accumulate a surplus, which could have been avoided by paring off bonds as they became due. 2,000 Garments onds as they became due. FINANCIAL NUMBSKULLS.

Mr. Blaine then said: "I believe, Mr. Chairman, that there never was an administration of the Treasury Department that showed so little practical comprehension of the condition of the man, that there never was an administration of the Treasury Department that showed so little practical comprehension of the country—one that had been so filled and permeated with that offensive conceit which always marks the theoretical free trader. [Great cheer ng.] I said before, and I repeat it now, that if a Republican Secretary of the Treasury had loaned sixty millions to pet banks all over the country, without interest, the Democratic party—if they controlled the House of Representative—would have moved to impeach him, and I believe it. [Cries of "That's so!"] I do not say that Republicans would so treat Secretary Fairchild, had they control of the House, because Republicans are not fond of violent methods, but are accustomed to proceeding with caution and moderation in public affairs. They don't wish to impeach him before the Senate, but they impeach him before the high court of the people for having done that which was plainly against the public interest, and for having failed to respond to the precedents set by former Secretaries of the Treasury in faithful and constantly applying the surplus to the reduction of the public dett." [Cheers]

Mr. Blaine concluded with some reference to the tariff and its relations to industrial interests in the vicinity of New Albany. the public debt." [Cheers]

THE "OLD ROMAN." Judge Thurman Has a Fine Reception at Shelbyville.

Shelbyville.

Shelbyville (O.), October 15th.—Judge Thurman leit Cincinnati this morning for a big Democratic barbecue. He was received with great enthusiasm along the route, and when he arrived here he reviewed a procession of Democratic organizations a mile long.

After dining, Judge Thurman was driven in a carriage, drawn by gaily-decorated gray horses, through the crowded streets to the still more crowded fair grounds. Fully 40,000 people were present, and had gathered around the three stands, from which prominent speakers held forth, among them being Senator Yoorhees, General Black, General Gray and others, Judge Thurman was received with much enthusiasm, and made a speech that was received with great applause.

The Exclusion Act Sustained by the Courts.

San Francisco, October 15th.—Judge Sawyer, of the United States Circuit Court, to-day rendered his decision sustaining the constitutionality of the Scott Exclusion Act. Judge Hoffman concurred. The Court holds that the petitioners for writs of habeas corpus are not entitled to be landed. One of them held a return certificate, the other claimed to be a prior resident, both contended that the new law did not apply to them, because they were on the high seas when it was passed. The Court holds that the Act of October 1, 1888, was intended to exclude all Chinese laborers from entryfrom and after that date, and to void all certificates then out. The language is specific and admits of no doubt as to its meaning. and excepts none, neither certificate men nor prior residents nor those en route when the Act passed. It is no concern of the Courts do not make the law, and cannot take out of it its express commands. Congress intended no exceptions to its order, and it took all the responsibility. The law is constitutional, for it does not divest any one of an indefeisable right gained under the treaties and laws. The certificate to return is not a "contract," but merely an instrument of evidence. A contract is a meeting of two minds on the terms of an agreement, but the certificate-holder was not consulted in the matter at all. The being here with the right to remain, is one thing; the voluntary going away with the right to return, is quite another. Congress has the right to legislate so as to control and repeal the stipulations of treaties granting the latter class of rights, and the Supreme Court so held in Whitney vs. Robertson (124 U. S., 193-5). The Court points out that in all its former rulings it has been right, because Congress had not before so modified the existing treaties and laws as to justify the conclusion that it intended to wholly exclude Chinese laborers,

He said the principle of protection was at stake, and showed by Cleveland's message and the Democratic platform that the success of the Democratic party meant a return to free trade. He claimed that the Mills bill was merely a red flag held up before the people to distract their attention from the real issue of the campaign—namely, whether the principle of protection shall be maintained in our national policy. DAILY RECORD-UNION

LIES NAILED.

The recoil upon the Democrats who have been circulating lies about General Harrison has set in. In another column to-day we publish a condensation of a complete and voluntary refutation of the mendacious statements made concerning General Harrison and his relation to the strike of 1877. The Democratic tactics in this matter have been bad, and Harrison gains a great deal more than the Democracy by the assault made upon him.

In keeping with the "strike story" is another now being circulated in Sacramento in printed form claiming that General Harrison received a large fee from a corporation as a lawyer for professional services rendered. Opposite to this statement is another alleging that General Harrison declared "that a dollar a day is enough for a working man." It makes no difference to the Democrats who are so lost to decency and a sense of fair play as to employ these vicious methods, that this latter story has been not only indignantly denied by General Harrison, but that the \$2,000 wager that it is a lie has not been taken, though no money is asked against it-they continue to distribute the circular and prob-

It is an evidence of the low tone to which Democratic political morals have fallen that the party managers can lend themselves to such infamy. It would be precisely as fair to assail Mr. Thurman for the enormous fees he has received for his services as a lawyer. For one, we are glad Judge Thurman was, in better years, able by reason of level conditions to come the services as a lawyer. We have no doubt that Mr. Cleveland, when he retires on the 4th of March next, and hangs out his sign in Washington, as he intends to do, as "Counselor-at-Law," expects, and we trust he will, receive all the fees his clients may agree to pay him

The Democrats will find that this latest method of assault will prove valueless to them—they waste efforts in that direction. But it has value to the Republican cause, since it is a clear confession of the abject fear Democrats entertain that the Cleveland regime is at an end. When an opponent | stre weakness and coming collapse.

AN OLD TRICK.

the ass with the skin of the lion is being tried by the Democrats in Indiana. The braying betrays the beast, for all the howl of the Democratic press about illegal voting and plans of Republicans to steal the election is a transparent device to mask the reut close to Sacramento conspiracy of the Democracy to "steal" Indiana. A dollar a head has been levied on Kentucky Democrats to be used in "carrying" Indiana, and colonizing from the Bourbon State goes on, despite the watchfulness of the Republicans. From five to ten thousand voters for Cleveland can be brought over the Ohio into the pocket State and never be missed from Kentucky. Where the contest is so hot, the battle-field so small, and the temptation so great, we ought not to feel surprised that such nefarious means are resorted to. An evidence of the criminal resort of the Indiana Democratic managers is found in the fact that they have declined to cooperate with the Non-Partisan Committee of One Hundred, organized to checkmate repeating, colonizing, etc. On the other of One Hundred, organized to checkmate hand, the Republican State Committee has united in the good work, and contributed \$5,000 to aid in maintaining a cordon of guards to intercept illegal voters, and to disclose the trickery of the political man-

THE CHINESE QUESTION.

Upon the Subject. Upon the Subject.

Congressman W. W. Morrow returned from Washington Sunday. In conversation with an Examiner reporter he said that much yet r-mains to be done in Congress to effectually keep the Chinese out of this country. "When the Scott bill became a law," he said, "the necessity of at once guarding the frontier became apparent. I went to the Treasury Department and got from the head of the customs division an estimate of the amount needed for that purpose. Bills making appropriations must, you know, be accompanied by estimates from the departments for which the money is wanted. The estimate was for \$50,000, and the bill has already gone to the President. It will, of course, be signed." TO MEET AN EMERGENCY.

"Some comment has been made on that sum as insufficient." observed the reporter.
"It is designed only to meet the present emergency. When Congress meets again another appropriation will be made again. The next session will begin in December, and the \$50,000 will last until another bill can be passed. It would not do to have adjourned without appropriating some money for that object. The Canadian frontier will be guarded with extra officers with this sum, as the Mexican border seems to be safe enough at present. The places where they are most liable to come into this country from Mexico are El Paso and Nogales, and customs officers are stationed there. There are fifteen or twenty places on the Cana-There are fifteen or twenty places on the Canadian frontier where Chinese might enter. At these places the customs force has always been only large enough to keep a watch on the trains and the passengers in them, and need of additional officers to watch out for Chinese between train hours and at night was seen.

canada and the might was seen.

Canada and Mexico.

There was some talk before I left Washington of introducing a bill requesting the President to enter into negotiations with Canada and Mexico, with a view of getting those countries to goot Chinese exclusion laws. Such a bill will doubtless be introduced in Congress next session. If adopted, there will be no necessity to guard the frontiers. I think it likely such negotiations will be successful. Although Mexico has been encouraging Chinese cheap labor, I think the Mexican Government can be induced to favor the United States so far as to exclude the Chinese. The Canadian House of Commons, at its last session, did not appear very much opposed to the Chinese, but I think it will also co-operate with this country. Until that is done, the United States will have to be guarded at every point.

"The exclusion law being a supplement to the Tea-Year Restriction Act, will expire when the term of the latter ends—namely, a little over three years hence. We will therefore have to have further Chinese legislation, and at the coming session a bill will be considered making the recent Exclusion Act perpetual. It has been introduced in the House by Mr. James from the former support of Booth, McCuliough, Barrett and Fred Wandes and Mexico, with Canada and Mexico, with a country and Booth, McCuliough, Barrett and Fred Wandes and Mexico, with Canada and Mexico, with a country and the Presiden Act of Booth, McCuliough, Barrett and Fred Wandes and Mexico, with a country and Mondsy Evening, Cotober 22d.

"The bill they introduced making it necessary for every Cainese in the country to be registered, will also be taken up next session. This plan will be an excellent addition to the Scott bill. It gives the Chinese six months to register, and if any are not so registered and in possession of the certificates issued under the law, they will be sent out of the country, unless they can give a good explanation of their failure to comply with the law.

"We accepted the Scott bill at once, because it contained the principle for which the coast had been contending—that the limitation of foreign immigration was a matter entirely within its own control, and not subject to treaty stipulation. It has established a precedent which will be valuable to us hereafter.

which will be valuable to us hereafter.

"The bill making exclusion perpetual, which is pending now, goes further than the Scott bill with respect to privileged classes. It shuts out all classes of Chinese—merchants, students and everybody else—except diplomats and consular officers. The delegation has not yet thought of any plan to stop the horde of 'citizens' who threaten to come from China. That is a subject very difficult to deal with under the law."

REPUBLICAN RALLY. A Meeting of the General Executive Committee for Making Arrangements. A meeting of the General Executive Con mittee having in charge the making of arrange ments for the grand Republican rally, to be held in this city on the 31st instant, took place at the Republican headquarters last evening. J. O. Coleman was elected Chairman of the committee, and Wm. F. Huntoon, Secretary, The Chair stated what action had been taken at the meeting held at the Court-house, and at the meeting held at the Court-house, and also at the subsequent meeting held at Mr. Coleman's office, when the date of the industrial display was postponed from the 26th to the 31st instant, and enlarged in plan to a grand Republican rally. Also, as to committees appointed, etc. On motion the action taken at the said two previous meetings was unanimously approved. The committee then proceeded to hear reports from committees and man out the work for completing arrangements. The Chair stated that upwards of thirty of the

for the 31st.

The Chair stated that upwards of thirty of the industrial establishments and leading commercial houses of the city had promised to take part in the industrial display which is now to take place on the evening of the 31st, and that as the invitation had been made general to all manufacturers and business houses, the prospect was that there would be an equally general response by all Republican proprietors. The report was also made that all the departments of the railroad shops were making arrangements to turn out and make a meritorious showing from those, the chief industrial works in the city. Other similar encouraging reports were made.

E. B. Hussey and A. A. Van Voorhies were appointed a committee, who, with the Grand Marshal, are to arrange for the order of display, transparencies, etc., in the line of march on the occasion of the demonstration.

Mayor Gregory, from the Committee on Grounds and speakers' Stands, reported that he had visited two out of three of the Capitol Commissioners—the other not being in the city—and procured the use of Capitol grounds for the meetings to be held in the afternoon, and proposed to have a speakers' stand erected at the entrances to the Capitol building on the north, east, south and west sides. This would give four stands, not far from each other, and yet so located that the speakers would not interfere.

A general discussion took place in the line of suggestion and pushing forward the work necessary for a grand rally and display, during which

A general discussion took place in the line of suggestion and pushing forward the work necessary for a grand rally and display, during which a high degree of enthusiasm was manifested. Most of those present engaged in the debate, and a unanimity of sentiment and purpose developed which promises excellent results. A motion was adopted, calling upon the business men, manufacturers and residents of Sacramento to each and all join in making the coming meeting and demonstration a gala day, in which all should heartily join, and in which business houses shall, as far as possible, permit their employes to take part. Some of the wholesale merchants present thought the wholesale houses could arrange to get their orders filled and shipping done in time to close up after 1 p. M., and thus enable not only their clerks and employes to participate in the demonstration, but that their teams and trucks could also be used for the industrial display.

The Finance Committee heretofore appointed was enlarged and divided into divisions as follows: For the district between First and Third streets—Mayor Gregory, P. E. Platt and L. Kikus; from Third to Sixth—A. S. Hopkins, William Schaw, D. Lubin, T. W. Sheehan; from Sixth to Tenth—J. M. Milliken, Max Hornlein, C. A. Luhrs, Richard Dale, C. S. Houghton, J. W. Wilson; east of Tenth street—O. W. Erlewine, J. W. Reeves, R. W. Parker, B. B. Brown, Charles Eldred and M. A. Howard.

On motion it was ordered that J. O. Coleman, and four whom he should select to act with him, shall constitute a Contract and Auditing Committee for the entire expenses of the demonstration. Mr. Coleman selected the Chairmen of the above four district divisions of the Finance Committee to act with him, so the Contract and Auditing Committee to act with him, so the Contract and Auditing Committee consists of J. O. Coleman, Mayor Gregory, A. S. Hopkins, J. M. Milliken and O. W. Erlewine.

After some further time spent in enthusiasm, in which methods and plans were suggested and e heretofore appoi

Gas Explosion. An alarm of fire was turned in from box 43 at 11:15 o'clock yesterday morning. The department responded promptly, and found a small blaze in Turner Hall, which had been caused by an explosion of gas. The flames were soon extinguished, but it was found that the building was considerably damaged by the explosion it appears that a plumber named E. C. Hutch-It appears that a plumber named E. C. Hutchinson was engaged in searching for a leak in the gas pipe in the saloon under the hall. Some person connected with the place attempted to assist him by lighting a taper and passing it up along the pipe. An explosion followed, which tore a hole through the floor and knocked the lathes and plaster off the walls and ceiling. No one was seriously injured, though Hutchinson and the barkeeper were slightly burned.

THE STATE PRISON.

AS INSPECTOR.

Work Done on the Dam-Prison Management.

The Board of State Prison Directors met at Folsom on Saturday evening, and transacted routine business. Director Luttrell submitted the following re-

port as Inspector for the month of September: To the Hon. Robert T. Devlin and the Honorable Goard of Prison Directors—GENTLEMEN: By your order I was appointed Inspector for the month of September to visit and examine into the nanagement of the Folsom Prison.

I beg leave to report that I have performed hat duty, and hereby submit the following reserve.

one patient in the hospital, he being a confirmed consumptive.

The 454 prisoners at Folsom are faithful in the discharge of the duties assigned them, working more like free men than prisoners. All of which redounds to the management and credit of the prison officials. While upon the subject of prisons, permit me to say that it is a sad commentary upon the affairs of the State to see so many of our young men in prison garb—at least 75 per cent. of our prisoners being young men. Upon examining into the cause of their incarceration, I find that strong drink and opium are the causes of nearly 90 per cent. of the crime in our State. The laws ought to be strictly enforced to prevent the giving or selling of intoxicating liquors to minors. A man that will sell liquor to a boy causing him to commit crime, ought to suffer the consequences of that crime. I appeal to all parents—as no one can feel for the youth of the land as a parent can, especially those who have borne the sad affliction of a son lost by intemperance—I appeal to all to exert themselves, and see that the laws are strictly enforced as to the sale of liquors to minors.

Second—I examined the Commissary's books

sinors.
Second—I examined the Commissary's books Second—I examined the Commissary's books and found them in good order and well kept. I also examined the supplies in store, and am pleased to report that all contract rs, with one exception, are furnishing supplies promptly and in strict accordance with samples. I regret to have to report that one contractor has furnished goods inferior to sample, but these goods in all cases have been returned at the contractor's expense. I will, for the present, withhold his name from the public, with the hope that he will not, in the future, attempt to palm off inferior goods. The next attempt will be reported with name in full. Contractors in all cases must comply strictly with their contracts.

WORK ON THE DAM.

Third—The work on the dam and canal is progressing finely. The concrete foundation has been laid across the main channel to the rising rock on the eastern shore, and we are now laying 2,500 cubic feet of granite per day. The machinery is working admirably.

Fourth—I was requested by the Chairman to secure a skilled engineer to visit the works, for the purpose of examining the work in the interests of the State. I performed that duty by engaging the eminent civil engineer, Colonel A. W. Von Schimdt, who visited the works and made a careful examination of the same, fully concurring in all that had been done by Mr. Humbert, the engineer in charge, as will fully appear in the written report of Colonel Von Schmidt, which is herewith submitted:

San Francisco, September 20, 1888. WORK ON THE DAM.

Sam Francisco, September 20, 1888.

To His Excellency R. W. Waterman, Governor, and the Honorable Board of State Prison Directors—GENTLEMEN: In compliance with your request, I proceeded to the State Prison at Folsom on the 6th instant, and there examined the plans and site of the new stone dam now in progress of construction across the American river, under engineer P. A. Humbert.

I found the location to be the best that could

I found the location to be the best that counce selected.

The work at the time consisted in laying bare the bed of the river, and the laying of a bed of concrete to receive the granite stones, of which the dam is to be built. The stone, both as to size and quality, is of the best, and when once in place, laid in Portland cement, will have for all time. tand for all time.

The dam will be 53 feet high above the cor

crete foundation in the center, and at the bas 50 feet in cross section. At top it will be 25 feet The upper portion of the dam has a sligh batter, while the lower side of the dam is mad with an easy curve forming an apron to take the falling water from the coping of the dam. For a more particular reference I beg leave to refer to the plans of the Engineer herewith, which gives as the

Length of dam tangent Length of curve... Length of wing...

Total length of overflow ... After a careful examination of the plans and ne location, I am of the opinion that every par of the work has been well and thoroughly considered, and that I approve of the same in all tas details, with one suggestion, that is, that teanal bottom be kept on solid ground when

Mrs. Simeon Brown and son Percy have returned from a four weeks' visit to San Francisco and San Jose. I have been requested also to give some sigures as to the value of this dam to the State figures as to the value of this dam to the State when completed.

There can be no question but that this can be satisfactorily answered in a few words.

The prison at Folsom requires power to drive its various kinds of machinery, whether now in use, or to be used hereafter, in the successful working of the State prisoners. Therefore a cheap power is what should be the first consideration. It is well known that the cheapest coal in this

Sastern States.

If water-powers for manufacturing purposes are sought for East, why not here?

As I understand, the State will get under their contract with the Folsom Water Company 600-norse power, free for all time, sufficient to run all machinery, from the electric lighting of the building and grounds, to the running of all rinds of machinery requiring power. tinds of machinery requiring power.

The value of 600 horse power has been estimated at \$50 per horse power per annum, or 30,000 per year. The water company, as I am informed, have standing offers per horse power of \$55 to \$75, per year. of \$50 to \$75 per year.

It is somewhat difficult to give an exact cost

per horse power per year where said power is produced by the use of coal, as the prices vary so much, but it can be taken with safety at from \$80 to \$100 per horse power. Therefore the sav-ing to the state would be 600 horse power at \$80, or \$18,000, or in round numbers would pay in or \$48,000, or in round numbers would pay interest on \$900,000 at 5 per cent.

I am of the opinion that the work is of great value, and necessary to make prison labor at Folsom self-sustaining and a profit to the State. In conclusion, I would suggest that fifty more men be put on the work as soon as possible, so that the foundation work would be placed before the freshets set in. Yours respectfully,

A. W. VON SCHMIDT, Civil Engineer.

A. W. Von Schmidt, Civil Engineer.

Fifth—The quarry is improving in appearance every day. From the work being performed along the line of the canal, there is, apparently, a field of operations for all the prisoners of the State for ages to come, for the quarry will last ages, and with the advantages of water power can be worked 100 per cent. cheaper than heretofore. There is no employment at which prisoners can be worked with so much profit as quarrying stone—the raw material costing nothing, every lick that is struck in the quarry is a profit.

PRISON MANAGEMENT.

beziement, was again postponed.

Coroner's Inquest.

An inquest was held at the Corner's office last evening on the remains of a man found dead on the porch of a saloon at Thirty-first and Streets. The jury brought in a verdict as follows: "We find that his name was William Kuntz, a native of Sandusky, aged 34 years, and that he died from hemorrhage of the lungs."

Late Arrests.

The town was very quiet last evening. The only arrests made up to midnight were as follows: Lawsence Bennett, disturbing the peace by officer Abel; E. W. Felows, a common drunk, by officer Abel; E. W. Felows, a common drunk, by officer Abel; E. W. Felows, a common drunk, by officer Abel; E. W. Felows, a common drunk, by officer Abel; E. W. Colonel J. B. Wright, the local Superintendent, asked permission for the Southern Pacific Railroad Company to widen the north levee forty feet from Sixth to Twelfth street. The object of this is to lay a double railroad track, which is required on account of the increasing business. Mr. Wright stated this would have a tendency to greatly strengthen the levee, and he was granted permission, in accordance with an ordinance already in the books, to proceed the remainding General Harrison with a desire to fire upon and kill the strikers and with attempting to do so, and which circular has been distributed in Sacramento.

These officers say, in substance: General Harrison in fact did not command the company; it was commanded by Eli F. Ritter, First Lieutent Gondon in fact did not command the company; it was commanded by Eli F. Ritter, First Lieutent General Harrison with a desire to fire upon and kill the strikers and with attempting to do so, and which circular has been distributed in Sacramento. port:

First—I find that all the officers, guards and prison officials are punctual in the discharge of their respective duties; that thorough good feeling and discipline prevail throughout the prison and that the prison in every department is most economically managed. I will add just here that never in the history of the State Prisons have they been more economically and better managed than at present.

Before mov-ing it he ordered all the guns unloaded. The of the strikers in their demand for better wages and urged the railroad companies to pay then the wages they asked and to avoid further con

tention. The troops were not called out against the strikers, but to protect life and property against the criminal element that came flocking into the city. The Governor who called out the troops, the General who commanded them and the Mayor who asked for the order and many of the officers and men were Democrats. There was no politics in the matter, no partisanship, no hot blood against the strikers and no violence, no gun was fired, no man struck or harmed; no threats made. The peace was not broken and no riot occurred.

The statements all denounce Gunld as a "light". Balance on hand September 1st.......\$143,775 89 ..\$152,886 99 perty-owners in the vicinty of Seventh eets petitioned the Board to keep the street lamp lighted in that neighbor-

no riot occurred.

The statements all denounce Gould as a "liar," declare that he is not Secretary of District Assembly 106, is laughed at by Knights of Labor, is despised by them and that he is not even a member of the order, having been forced to resign for bad practices. The statements add that there is no more truth in Gould's stories than in the fabrication that General Harrison said "a dollar a day, is enough for a workingman," which allegation all Indianapolis laughs at and no one believes.

It is a fact worthy of notice that Lieutenant Ritter, who leads off in the statements against Gould, is not a Republican, but a member of a third party, and supporting its Presidential candidate. The Chief of Police and President of the Common Council in 1877, all Democrats, join the officers referred to in denouncing Gould's statements as "infamous fabrications," and the Chief gees so far as to say that so little did Gorgel Herrison have to desirible to the country and the chief gees so far as to say that so little

General Harrison are wholly false. There isn't even the least foundation for them, and the 'dollar-a-day' story we all know is a lie. General Harrison did not go into camp with the company, and was not with us while we were organized until the day when he came out to march back to the city. The strike was then over. General Harrison was a member of the Ctizens' Committee, appropriet to arbitrate the darrage of the carry of the Pittsburg; there were a great many tramps, no allroad men, around Indianapolis, who were

Pittsburg; there were a great many tramps, not railroad men, around Indianapolis, who were attempting to make trouble, and the company was a movement of the best citizens of Indianapolis, representing men of all political parties, to protect life and property. The statement that General Harrison started to the depot with the company, determined to start trains by force, is untrue. The company was never inside the city limits after it was mustered in, until the strike was over. We then marched down to the Circle, where we were disbanded. General Harrison at no time ever suggested that any violence be used."

The free and intelligent voter, as he approaches the place where and wherein his opinions, as developed in the paper representative held in his hand, should not only believe, as the ballot leaves his po session and is dropped into the receptacle provided for its safety, that it will be honestly received and fairly counted; but, in addition, he should be fortified in the belief also, that every power would be brought to bear by the proper authorities to protect him in his expression of opinion at any hazard and without limitation as to cost.

When events subsequent to election go to prove to those who never violate, and who always hold themselves amenable to the powers and the laws provided for their care and government, that they have been robbed and defrauded of the deavest privilege accorded them—the right to vote—by the vite, degraded and corrupt, they become disheartened; to a certain extent they lose their own self respect, and finally lose it all by refusing ever after to take part in elections, and leaving the voting privilege to the scoundrels who have robbed them of that right by faisifying the record and rendering a di-honest return; and the result is that the government of the country goes into the hangs of those who, using it as a speculation.

There was great commotion on the streets as drove to the palace. H was chee and hooted by the crowds. FLOQUET'S REVISION BILL

Paris, October 15th.—Floquet, in a speech introducing a bill for the revision of the Constitu-tion, declared that it was not proposed by a retion, declared that it was not proposed by a revision of the Constitution to destroy republican
institutions, but to improve them. Revision
was rather aimed against Royalist plots and
plots for the creation of a dictator. Floquet
added that the bill proposed to grant the Ministers a legal period during which they should
remain in power. The Ministers would thus be
less preoccupied with the votes of the Chambers, and at the same time the Chambers would
always possess the right to impeach the Ministers. He moved that the bill be referred to
a committee. This motion was adopted after
debate.

MISSISSIPPI'S RIVAL.

What Explorers of the Wonderful Yukon River Say of It. OTTAWA. October 15th.—The official report on the great Yukon river shows that 600 miles of it is in British territory. This includes about 200 miles of the gold mining region, where the chief mining camps are situated. Men are earning from \$10 to \$20 a day, washing, but the work only lasts about two months in the year, in consequence of freshets and early frosts. The river is 2.200 miles long, and for 2.000 is navigable, without a single rapid or portage. Its breadth is from six to seven miles in places, and will average three or four miles. Rivers emptying into the Yukon are broader than the Hudson at New York. Little of the region traversed is fit for agricultural purposes, although the valleys are suitable for stock-raising. The country abounds with minerals. The winters are not more severely felt than those of central Canada. OTTAWA, October 15th .- The official report of

ABSOLUTELY PURE

For quick raising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, most palatable and nutritive food. Bread, biscuits, muffirs, cake, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. H. A. Mott, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure crean of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

A little over six weeks ago Mrs. Fowler, of 327 Ellis street, San Francisco, stopped in at a leading city druggist's to ask what effect Joy's Vegetable Sarsaparilla, would have in cases of dyspepsia and sick headsche. She was assured that it would relieve both. She was, however, so incredulous that finally the druggist gave her a bottle, not to be paid for unless it effected a cure. A proposition so startlingly practical has seldom, if ever before, been made. The following just received is the convincing conclusion, and tells its own story:

tells its own story:

SAN FRANCISCO, February 8, 1°88.

DEAR SIR: I write to admit that, notwithstanding my misgivings, Joy's Vegetable Sarsaparilla did all that you promised. I had tried so many prescriptions, to no purpose, that I had come to believe nothing would relieve my dyspepsia and sick headaches, but I have not had a return of either since I commenced taking it. I believe I am permanently cured, but will continue to take it regularly for a while yet. You will have my permission to make this public, for a remedy that will cure dyspepsia and prevent sick headaches should be generally known. Respectfully,

mrs. m. Fowler

Court in and for said county. The People of
the State of California to JOANNA C. VAN TASSEL, greeting: You are hereby notified that an
action was commenced in the Superior Court of
the County of Sacramento, State aforesaid, by
filing a complaint in the Clerk's office of said
Court, on the 14th day of September, 1888, in
which action JAMES ANDREW VAN TASSEL
is plaintiff and you are defendant. That the general nature of the action, as appears from said
complaint, is as follows: To obtain a decree of
divorce from you on the ground of extreme
cruelty, the plaintiff alleging that for the past
ten years you have been continuously cross,
fault-finding and disagreeable: that you have
often accused him of unfaithfulness and in the
presence of other parties; that your conduct has
been such as to investe the back. often accused him of unfaithfulness and in the presence of other parties; that your conduct has been such as to impair his health and to cause him great pain and sorrow; all of which is more fully set forth in said complaint, reference to which is hereby made. And you are hereby directed to acpear and answer said complaint within ten days from the service of this writ, exclusive of the day of service, if served on you in said County of Sacramento; and within thirty days, exclusive of the day of service, if served elsewhere; and you are further notified that unless you so appear and answer within the time above specified, the plaintiff will apply to the Court for the relief prayed for in said complaint.

In testimony whereof, I, Wm. B. Hamilton, Clerk of the Court aforesaid, do hereunto set my hand, and affix the seal of said Court, this 14th day of September, A. D. 1888,

[SEAL.] W. B. HAMILTON, Clerk. GEOVE L. JOHNSON. Attorney for Plaintiff.
